File: PGPB

Feb 7, 2002

DOCUMENT-IDENTIFIER: US 20020016655 A1

TITLE: Apparatus and method for processing and/or for providing vehicle information and/or vehicle maintenance information

Detail Description Paragraph:

[0199] The database 10H can also include data and/or information for providing advertising for vehicle sales, vehicle leases, vehicle insurance, vehicle financing, vehicle locating, vehicle extended warranties, vehicle accessories, vehicle equipment, vehicle parts, vehicle roadside assistance, vehicle emergency assistance, vehicle maintenance services, vehicle repair services, and/or vehicle servicing services. The database 10H can also include data and/or information for and/or regarding electronic catalogs, electronic coupons, and/or alternative value entities, for purchasing, leasing, and/or obtaining any of the respective vehicles, vehicle insurance, vehicle financing, vehicle locating, vehicle extended warranties, vehicle accessories, vehicle equipment, vehicle parts, vehicle roadside assistance, vehicle emergency assistance, vehicle maintenance services, vehicle repair services, and/or vehicle servicing services. The electronic catalogs and/or coupons can also be utilized for prepaid goods, products, and/or services.

DOCUMENT-IDENTIFIER: US 20050165661 A1

TITLE: Method, apparatus and program product for facilitating transfer of vehicle leases

Detail Description Paragraph:

[0043] Once the vehicle information is entered at 190, the listing user may then be directed to a web page or series of web pages/screens in order to enter vehicle lease information as indicated at 192. The information entered by the listing user may include the vehicle leasing company, the lease account number, the monthly lease payment, the total miles allowed on the lease, the length of the lease term, the lease end buyout amount, the lease origination date and the lease expiration date. After the vehicle lease information has been entered at step 192, the listing user may be given the option of providing an incentive as indicated at step 194. If the listing user chooses to provide an incentive the listing user may be directed to a page or screen where the incentive may be entered as indicated at 196. After entry of the incentive, or if no incentive is to be offered, the listing user enters credit card information at step 198 to pay a required monetary fee in order to have the vehicle listed on the website. At such time the listing user agrees to all listing and transfer fees and also agrees that the website administrator will act as their agent in the lease transfer transaction. At step 200 the electronic credit card transaction is processed and, if approved, an automated e-mail is sent to the listing user/seller to confirm that the vehicle has been listed and to provide details on what may happen next as indicated at step 202. At 204 the vehicle lease record is added to the website database and the listing is activated at 206. Upon successful completion of the electronic credit card transaction the listing user may also be queried as to whether or not the listing user will continue to be held liable to the vehicle leasing company even after transfer of the vehicle lease to another party. This query is shown at 208 and may be in the form of a simple question presented to the listing user. Alternatively, because vehicle leasing companies typically use standardized agreements, the website may store information regarding continued lessee liability after transfer and may automatically determine whether or not the listing user will continue to be held liable. If the listing user will continue to be held liable the listing user may be directed to a liability insurance link 210 where insurance coverage may be obtained to cover the continued liability as will be explained in further detail below.

Detail Description Paragraph:

[0051] As shown in FIG. 9, the additional information link 110 of the website homepage 100 may provide the users with various information concerning how the process works, as well as links to other information which may be helpful to the users. For example, a how it works link 300 may provide an explanation of the process which is directed to searching user/buyers at indicated at 302 and may also provide an explanation which is directed to listing users/sellers as indicated at 304. A glossary of various terms may be provided at 306. The link 308 would direct the users to an explanation of the company running the website while link 310 would provide contact information for the website operator. A link to frequently asked questions (and answers to the same) may be provided at 312, and a link which would direct users to related service providers may be provided at 314. The cool things link 112 may be used to direct users to buying tips 316, selling tips 318, a site newsletter 320 and a lease calculator 322. From various locations in this process

the users may be directed by link 324 to the insurance product information. Links to particular leasing companies may also be provided as shown at 326 in order to provide both listing users and searching users with information about the particular leasing company associated with a given vehicle lease at 328.
